MOOR FAST £39.95

Rating ★★★★★

Threading a line through the ring on a mooring buoy, passing a line through the semi-submerged ring on a pile mooring or sending a line off to a metal hoop on a pontoon can all be achieved with the Moor Fast line threader. Make no mistake, however, this is not a boathook, it is only to be used for threading a line.

The whole device is deceptively simple. A line is permanently attached to one end of a bar that closes a horseshoe-shaped extension to a lightweight, floating handle that can extend your reach by a couple of metres. The bar is pressed against whatever you want to thread the line through, so that it opens and then snaps
